“ *What a warm, elegant woman. Bill and Ann were neighbors in Chester Springs. I have so many happy memories associated with them. Ann was a gracious hostess who put on lovely dinners in the cozy surroundings of their home. We went to many Christmas brunches and went outside to join the carolers who came by on horseback with Santa on his sleigh. I remember an absolutely enchanted evening with dinner on their dock.*

We visited Ann when she moved to White Horse Village, and came away with all the hostas in the garden because she didn't like them. All of them are nicely settled at our place. We have separated a particularly vigorous one several times. We refer to it as "Ann Brewster," and its offspring are lovely reminders of our long friendship.

As a member of the French & Pickering Creeks Conservation Trust board, I am so touched by her bequest. She and Bill were great stewards of their environment, and this gift will enable the Trust to do the same.
