“ Carol and William---I was the travel agent who used to book your Dad and Betty's trips--what a wonderful treat it was to work with them--they loved cruising and when they returned they always came in my office to tell me about the good time they had and what dance contest they had won--He was so proud of his family and used to talk about their accomplishments--I think I remember he also loved to ski -What a great accomplishment for him to live to be 98yrs.old--but how sad to pass the way he did---everyone in the office loved to see the wonderful way he would hold the door open for Betty-and pull out the chair for her so they could both sit at my desk-----He may have passed but he will certainly be remembered for all that he did for people and the happy person who always had a big smile on his face---please accept my deepest sympathy at this sad time--he was one of my favorite clients-----
