Tribute Wall

“ There are no words great enough to convey what Dr. W meant to me. I cried when I heard of his illness, yet admired the dignity which he maintained in making the news known to his patients. Dr. W treated my 2 girls for 39 years, and was still treating my younger one when he resigned from practice. He saw us through some very dark times, and celebrated victories. I lost a doctor, friend, and closest thing to a family member. But how very blessed am I to have had the privilege of knowing, and loving, this great man! My heart goes out to his family. I would love to come to his celebration of life, if possible. Kathy Dodds, mother of Sarah and Allison Brozdonis
