“ *Michael,*

My first memory of you dates back to 1981. You took my brother and me to see a double feature: Time Bandits and The Empire Strikes back. I am fortunate that I have over thirty years of memories of you as a fantastic uncle and all-around good guy. In addition to being kind and caring to me and my siblings, you were always there for my grandmother, particularly during the final years of her life when her independence was taken from her.

I'm glad that my boys brought you happiness during the last few years. I'm deeply saddened that they won't get to know you the way I have. When they are a little older and I have some way to explain why they won't see you again, I will remind them that you loved them very much.

I hope you are at peace. I miss you deeply.

“ *Depending on the situation, Michael could be the gentlest of men or the fiercest. His kindness and patience knew no limit. No one can match his story telling ability and I will greatly miss hearing his tales. Michael had a way of touching the hearts of all of our children. They knew he accepted them unconditionally and they all loved him the same way. The plan was to grow old with Michael and Nancy once we retired, so much for plans. You may not be there during our golden years dear friend but you will forever be in our hearts.*

“ Things I'll miss and remember about Michael: I'll miss his unbiased advice and perspective on life. I'll miss his witty commentary during Phils, Eagles and Penn State games. I'll always remember his boxing tips and how he said I would need them if I ever attended an Eagles game in the 700 level of the VET. He was funny, supportive, compassionate and an all around great man that I'm proud to have had as an uncle.

“ Dearest Michael,

You were such an important part of my life for over 35 years. I treasure every moment. When your bright, shining light went out, part of my world dimmed. I miss you terribly and will love you forever.

“ My heart aches beyond words. We lost someone so incredibly special that it's hard to breathe. It's selfish to think this way but it breaks my heart to think that he and I won't share our daily text messages back and forth just for the sake of keeping each other entertained and spirits high. 9x out of 10 my day would start off with a text from Michael and our texts would carry on throughout the day and into the evenings. I won't ever forget the kindness and love he'd shown towards me and those we love the most. In the short time I've gotten to know Michael and Nancy(3+ years) they've become an important part of my life and even better to be able to call them family. I love you with all of my heart Michael, until I see you again my dear, dear friend and uncle.

“ Michael was more than my uncle, he was my second father, my champion, and one of my best friends. He was always there for me, quick to respond to whatever was going on in my life, to tell me I was being a goof or just send me encouragement or support. I counted on him for everything. It's hard for me to believe he's gone. He was the absolute best. I will miss him everyday for the rest of my life.

“ Nancy and Michael were long time friends of my parents, but always took such an interest in the lives of my sister and I. As we grew up and became adults, Michael still treated us as if we were his own daughters, but we also thought of him not just as a friend of our parents, but as our own friend. He was always good for a bear hug, a cheesecake, or a laugh. I will miss my friend!

“ In 1981, Michael, Nancy, my Wife, Katha, and 1 year old Lisa stayed on the beach at Rehoboth for a week. A hurricane was coming and it was raining and kind of windy and me and Mikey were drinking a few beers. The surf was crazy, big waves and I came up with this great idea to hit the beach and do some body surfing. Michael supported the idea and we hit the surf. We were getting knocked around by these big waves so I came up with another great idea, "let's swim out beyond the breakers". Again, Michael supported my idea. We are both competent, not good swimmers. Once out there, the force of the rip currents became apparent. I am not certain how long it took us to get back in but I know that adrenelin had kicked in and we both barely made it back to the sand where we flopped down face first unable to move our arms or shoulders after about 20 minutes of continual swimming and after talking to him, we both agreed that we thought we were not going to make it back, even though we did. I remember that like it happened yesterday and the whole week was such a great time with those guys
