“ I worked with Tom in Stock Transfer during the late 60's & 70's. I remember his dry sense of humor, his love for coin collecting, and stock investments. In fact he was instrumental in getting me interested in coin collecting with my first starter coin kit. He also had me make my first stock investment outside of PECO with some solar companies which he said was the next big thing! I found Tom to be a very interesting colleague.

*My regrets to the family, I'm sure he will be sorely missed!*

*Linda Gordy*
